

Parental control

Parental Control adalah salah satu tool pada TIS yang sangat berguna untuk memblokir kategori tertentu dari website atau situs. Ada beberapa keuntungan dari tool Parental Control yang ada pada TIS, yaitu;

- Menjaga anak anak dari akses dan informasi ke situs yang berbahaya seperti situs porno, informasi teroris, narkoba, dan situs lainnya yang tidak baik bagi anak anak.
- Anda dapat menentukan waktu penggunakan akses internet di rumah bagi anak anak anda dengan mengatur schedule penggunaan internet dengan login tertentu.
- Dapat Mencegah anak anda dari pemberian informasi pribadi seperti password, nomor telepon ke website tertentu via chatting maupun via email.
